Get in touch on **01452 717070** or email enquiries@blackfinch.com

Notes:

- ¹ Shares must be held at time of death. Business Relief is assessed by HMRC on a case-by-case basis at the time of death of the investor, as part of the probate process, and therefore cannot be guaranteed.
- ² Dealing fee will not be charged on exit if they hold until they die. The dealing fees will be rebated if a client dies within 2 years of the BR-qualifying start date. Note: This will apply to the initial, additional investments and exit dealing fee that fall within that two year investment period, not interim withdrawals.
- ³ This fee relates to the management of the portfolio firms' ongoing operations. We apply the resource and expertise of our team. These costs are capped at 1.5% + VAT p.a. We calculate our model portfolio target returns net of these fees.
- ⁴ From date that trading commences, or shares are issued, whichever is later.
- ⁵ The AMC is charged to the portfolio companies so investors should receive tax relief on the entire amount invested into the companies and the fees charged to the companies.
